Well Microtube Storage Boxes

Stylish & Identifiable

- + Made of translucent, vibrantly colored polypropylene allows for visibility inside box and color coding identification
- + Tube capacity is indicated on the outside the box within a distinctive wave design
- + Quick visual identification with uniform wells and alphanumeric location identification along with a frosted labeling area

Robust

- + Easy open and secure lid fitted with either friction fit or snap clasp designs
- + Stackable, saving valuable space in the lab.

Microtube Storage Boxes

- + Hold 1.5 and 2.0 mL microcentrifuge tubes and cryogenic vials.

Low Temperature Microscope Slide Boxes

Store in ultra-low temperatures with confidence

Holds standard slides (76 x 26 mm and 3 x 1 in)

Durable Construction

- + Made of polycarbonate to store in ultra-low temperatures
- + Uniform grooved slide slots separate slides preventing slide contact
- + Molded feet enable secure stacking for easy transport and storage
- + Low temperature resistant numbered foam lining corresponds with identification sheet

Low Temperature Microscope Slide Box Polycarbonate

100-Place Premium Plus Slide Box

Modern design for maximum functionality

Optimal Organization

- + Organize by "project" and "date" molded in on lid
- + Inventory card index corresponds to slide numbers and is removable for trouble-free writing on flat surface
- + Vibrant translucent colors are easy to identify and enable coding options

Functional Design

- + Flexible storage, store vertically or horizontally to efficiently use space
- + Molded feet allow secure horizontal stacking of multiple units
- + Unique side storage can accommodate a pen, desiccant or other small items needed for working
- + Hinged lid smoothly opens 180° sitting flat on surfaces and prevents misplacement

Standard Microscope Slide Boxes

Constructed of durable polypropylene

Slide boxes hold either 25 standard slides (76 x 26 mm and 3 x 1 in)

Improved Identification

- + Molded slot numbers correspond directly to the slide inventory card
- + Organize with "project" and "date" pre-molded labeling area

Secure & Stackable

- + Hinged lids are held securely closed with a latch lock
- + Molded feet secure stacking for easy transport and storage

8-Slide Staining Tray Set

Reduce possible cross-contamination and messy work areas

This rugged staining tray is an economical alternative to metal versions

- + Up to eight slides fit comfortably onto the base and the deep well holds up to 38 mL
- + Compact size and recessed handles for easy transport from work area to sink
- + Made from a polypropylene and polyethylene blend for stability
- + Stain, rinse, and dry slides on a single working tray
- + A clean and fresh working surface area every time
- + Pack includes 4 trays and 1 lid

Premium Microscope Slide Boxes

Slide boxes are perfect for storage or transportation of standard size slides (76 x 26 mm and 3 x 1 in)

Organize & Identify

- + Lining and slots are numbered to correspond to the slide inventory sheet
- + Organize by "project" and "date" with pre-molded labeling area
- + Available in multiple colors for project coding

Durable & Safe

- + ABS plastic boxes available with either cork or foam lining
- + Designed to securely store slides in grooved slots
- + Molded feet secure stacking for easy transport and storage

Lab Drying Rack

Bringing color to a mundane task

Most Versatile Rack in the market

- + Channels designed for more useful configurations
- + Large and Small pegs for all glassware varieties
- + One of a kind Drying Basket to collect smaller items

Designed to protect against breakage

- + Peg angle allows for better hold - especially large, heavy pieces
- + Patent Pending Sure Grip Hook securely grips glassware into place
- + Use on counter or wall
- + Stands alone on integrated hinged stand. Mounts easily on wall with included guide and hardware
- + Can hold up to 77 lbs (34.9 kg)

Included:

- + 72 Pegs ~ 36 Small (Green) ~ 36 Large (Blue)
- + 2 Drying Baskets
- + Drainage Tubing
- + Mounting Hardware

Tube Roller Racks

Efficient and practical solution for tube roller workflows

Expand capacity of your workflow

- + Each Tube Roller Rack accommodates 10 tubes, doubling or tripling the capacity of your tube roller equipment

Versatile and Durable Solution

- + Organize samples pre and post mixing
- + Use as a storage tube rack for upright storage or submerge in an ice bath
- + Polypropylene construction is wear-resistant and offers reliable sterilization through autoclaving

Saves Process Time

- + Large batch processing reduces the number of roller cycles required for lab procedures

Saves Money

- + Handles more without the need to invest in multiple machines to process the same amount of tubes

Saves Valuable Space

- + Additional capacity especially helpful with limited incubator capacity

Weighing Boats

Flexible polystyrene boats feature smooth surfaces to provide accurate pour-outs with minimal sample loss

- + Select white, black, or blue for best color contrast to ensure sample is completely removed
- + Biologically inert and resistant to dilute and weak acids, aqueous solutions, alcohols, and bases
- + Temperature range -10 to 70°C (14 to 158°F)
- + Antistatic versions available making the boats nonreactive with most substances and suitable for weighing static-affected samples
- + Wide flat bottoms ensure stability and prevent tipping
- + Rounded corners allow simple flexing for controlled pouring of liquid, powdered or granular samples
- + Can be used with microwave moisture analyzers
- + Made from FDA food grade polystyrene

Combination provides choice to spread or pick colonies and cultures

- + Transfer bacterial cultures without risk of contami
- + Use loop end to uniformly streak a gel surface
- + Use needle end for removal of colonies
- + Choose between flexible polypropylene or the more rigid ABS versions
- + Lot-to-lot traceability

Pipette Filler

- + Efficient one-handed operation
- + Control air-evacuation, liquid uptake, and liquid dispensing with three valves
- + Pinch release-valve for smooth liquid flow
- + Red pipette filler is safe for pipetting of caustics and does not contain carbon black and will not smudge
